Commencement at the Ohio Western Intelligence.

The Commencement exercises of the Ohio Western Market this year with more than until success and interest.

The Postoffice Department will shortly issue a circular with regard to certain damaging stuff often sent through the mails, which is hereafter to be excluded. The occasion which leads to this action is the fact that recently several packages of smoked fish, in various stages of decomposition, have been received at the Postoffice Department in Washington, which had gone through the mails from the Atlantic cities via Arizona to San Francisco.

They were sent on to Washington by the Arizona Mail Contractor, with the inquiry whether he is compelled to transport the Arizona Mail Contractor, with the inquiry whether he is compelled to transport objectionable merchandise of that character. The cost of transportation from pound for express transpor their Eastern goods through the mails, and that among the goods thus received almost everything, except oil and mo-

almost everything, except oil and molasses, may be found.

The Wheat Movement.

The Crop news still continues favorable despite the frequent storms. The wheat movement to the seaboard has practically ecased, the receipts of wheat at all the western ports now averaging less than 250,000 bushels a week, against 1,500,000 bushels usually at this time. For the four weeks ending June 23, only 1,915,000 bushels of wheat were shipped East against 6,900,000 in the same time last year. There is also a small movement of oats, but corn is still in good supply, the shipments being 'about three-fourths of last year's. Our exports of wheat to Great Britain from September fourths of last year's. Our exports of wheat to Great Britain from Septembes to May inclusive amounted to 12,700,000 centals, while her imports from Russia were 6,244,000. The total British imports of wheat in this period were 29,600,000 ngainst 39,410,000 last year, and 29,000,-000 the year before. The relative per cents of the whole furnished by these two countries in three years from September to May is thus shown:

1874-5, 1875-6, 1876-7, ...... 55 44 43 ...... 20 18 21 Russia seems, therefore, to be holding her own pretty well.

That is right, Nothing helps a good cause and its representative saints,—pro-vided the one is good and they are saints, like a little healthy persecution. If the Hayes Republicans don't know how to turn such opposition into strength, then they are not equal to their opportunity.

## John Sherman on the President's

Secretary Sherman expresses the opinion that the recent order of the President, forbidding Federal officers from partici-pating in political conventions, &c., will not result in thoroughly disorganizing the political machinery in the several States, but it will have a beneficial effect in that it will force out of politics an objectionable set of Federal officials who have been manipulating the elections for their own personal interest, and will attract a new element to political organizations standing nearer the people. The new men who take hold to manage the party interests will work harder and more efficiently, because they will, he said, be stimulated by a hope of reward for their services, and, added the Secretary, "the outs are always stronger than the ins." not result in thoroughly disorganizing

## Grant for 1880.

Grant for 1880.

From the Hartford Times.

It is evident the anti-Hayes section of the Republican party is quietly seeking to bring out Grant again as its candidate, and that it is disposed to use the extraordinary honors conferred upon him in England as an aid to that end.

In Benson's ferryboat, "Jesse B," was torn from its moorings vesterday morning to bring out Grant again as its candidate, which raved about at that hour, and was driven across to the mouth of Caldwell's run. No serious damage was done.

Seminary, addressed the Laterary Secutions.

Thursday, June 28th, the regular graduating exercises of the University took place upon the Campus. The class of 77, composed of twenty-nine members, went forth bearing the reputation of being the smartest, porhaps the wickedest, surely the most independent class that ever graced their Alma Mater. Sixteen of their number represented the class upon the orators stand, and they acquitted themselves to the satisfaction of every one. The number of visitors present upon this day is thought to have executed former occasions. Among their were, Mrs. Henry Harper, Miss Lide Lower, Mrs. Henry Harper, Mrs. Henry Harper, Mrs. Henry Harper seeded former occasions. ### Lemons a Cure for Consumption.

From the Nashua Telegraph.

A correspondent of an English medical journal furnishes the following recipe the receipts from internal revenue ex-ceeded the estimates by over \$2,000,000 dozen whole lemons in cold water and during the last fiscal year, while the receipts from customs were about \$18,000.

000 below the estimates, showing an increase of business activity in this country and an extraordinary decrease of imports. Apart from the salutary effect of this state of affairs on our trade and industries a growing disposition is evinced to use home manufactures, which is the true and proper American spirit.

POLITICAL NOTES.

Thurlow Weed says that the non-partisan government of cities is correct, and will ultimately prevail, but for the States and the nation there must always be two or more grand divisions of the people, with essentially differing platforms of principles, and which ever succeeds by the popular vote to power must likewise control and benefit by the patronage, or commit political suicide.

Ben Hill says of Blaine: "I think I know the old fellow. He has a tongue that never tires, an ambition that never sleeps, a face that never blushes, and a large of the surface of the surface of the patronage, or seminary to the patronage, or commit political suicide.

For the war in Europe he appears to care nothing. "I hate all wars," he says, "and will be satisfied if dogs who will fight keep away from my door."

The Lynchburg Virginian says, "We repeat what we have frequently said, that we have too much politics in Virginia. It is a characteristic of our pele, and one which militates against the material prosperity of the State."

The St. Louis Globe-Democrat (Rep.) says "it will be well for those who are making so much ado over the President's last order to office-holders to remember that a similar order was once issued by President Lincoln, and that that order is still in force, having never been withdrawn."

The displaced postmaster at Toledo and the displaced collector at Baltimore propose to go on the war-path against Hayes republicanism and civil-service reform. That is right, Nothing helps a good

The Southern issue is dead; no sensible man expectate and no article. ensible man expects and no patriotinan desires to revive the South tion, so happily and constitutionally closed up by Mr. Hayes. Next is the civil service policy. Shenck's Sea Weed Tonic.

In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspirations reduce bodily energy, particulary those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is every effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dysapensin, it is invaluable. Many eminent physicians have douthed whether dysapensia can be permanently cured by the drugs which are generally employed to that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric pittee that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body causes the food to be digested; and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms follow. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists.
